

**QOSK is a ChromaKey
Photo Kiosk of smart advertisement type**

Qosk is an one-stop Photo Kiosk solution that can solve two desires with one such as SNS to share the photo taken memory and an instant output service to keep printed photos for domestic and overseas tourists and citizens.

Qosk has been designed to accomplish a mutual desired goal as it takes a photo by selecting desired background and proceeds an indirect advertisement by inserting an event logo on the photo. It is a solution for convenient use and installation. Qosk team of UB Co., Ltd. shall do our best to settle down as an important service to the tour industry of Korea.
